Date : 2014 To 2015

PROFILE

Motivated Backend Python Developer with a strong understanding of Python programming, logic building, and problem-solving. Skilled in creating console-based applications, working with APIs, performing file handling, and debugging code. Hands-on experience through training projects with a focus on writing clean and maintainable backend logic. Quick learner and committed to improving backend development skills.

EXPERIENCE

Tops Technologies

Place : Ahmedabad

Python & Backend Development Trainee

Date : 2025-Present

Training company focused on delivering technology education.

- Worked on multiple Python console-based mini projects
- Developed Python scripts during training to practice automation logic and improve coding efficiency.
- Wrote clean and structured Python code with proper comments and modular functions during training projects.
- Debugged and tested Python programs to identify and fix logic and runtime errors.
- Practiced basic JSON data handling during training.
- Performed file operations, exception handling, and debugging.
- Practiced logic-building through 20+ Python programs
- Improved understanding of backend development concepts.

Key Achievements

- Developed 20+ Python console-based programs focusing on logic building and clean backend structure.
- Created a File Manager Tool using Python with proper exception handling.
- Built a Student Result System as a mini console-based CRUD project.
- Improved debugging skills by identifying and fixing errors faster during training tasks.
- Strengthened backend fundamentals including file handling, functions, loops, lists, and data manipulation.

SKILLS

Programming And Markup

Python · SQL · HTML · CSS
