## 👤 PROFILE

Motivated Backend Python Developer with a strong understanding of Python programming, logic building, and problem-solving. Skilled in creating console-based applications, working with APIs, performing file handling, and debugging code. Hands-on experience through training projects with a focus on writing clean and maintainable backend logic.Quick learner and committed to improving backend development skills.

👤 EXPERIENCE

Tops Technologies   Ahmedabad
Python & Backend Development Trainee   2025
Training company focused on delivering technology education

- Worked on multiple Python console-based mini projects
- Implemented API integration and JSON data handling
- Performed file operations, debugging, and error handling
- Practiced logic-building through 20+ Python programs
- Improved understanding of backend development concepts

🚩 KEY ACHIEVEMENTS

● **Python Projects Completion**
Weather API App – Fetched real-time weather data using API & JSON

• File Manager Tool – Performed read/write operations with error handling

• Student Result System – Console-based CRUD mini project

● **Improved Debugging Efficiency**
Enhanced error handling skills reducing debugging time by 30% during training.

● **Code Review Accuracy**
Achieved 95% accuracy in code review process within peer development group.

● **API Request Management**
Successfully handled 65+ API requests, ensuring 99% uptime in simulation environment.

🚀 SKILLS

Python · SQL · Git And GitHub
